

All Aluminium Alloy Case Solid with Elegance

Integrated aluminum alloy case, with profound streamer and unique metallic color & lustre

Support VESA standard, various scenarios, Oil proof, spill-resistant surface design

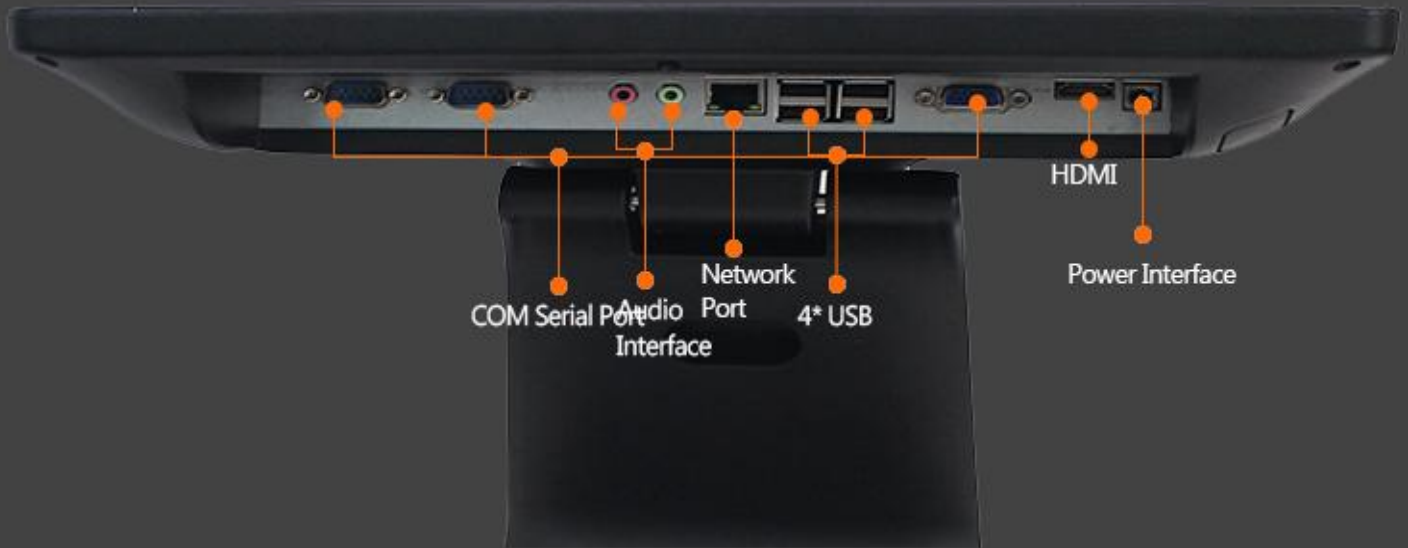

Support VESA standard. Its host is flexible to install, which is OK at base, wall, holder. It's up to you to master a large number of scenarios. One of the most significant advantages is anti-corrosion due to the tempered glass surface of the capacitive screen, unassailable even it touches acid or alkaline, which allows you to use more at ease
